Experience

Adatafy (Novaspect) Schaumburg, Illinois
Software Engineer II *June 2022 – Present*

- Delivered **8–9 enterprise digital transformation implementations** across pharma, food, biofuels, campus utilities, and chemicals, owning end-to-end delivery: **discovery, solution design, integrations, UAT/validation, go-live, training, and hypercare**.
- Led **8-hour discovery/configuration workshops** with operators and stakeholders; produced **process maps, solution architecture diagrams, and Jira backlogs**, enabling phased rollouts across 6–8 stakeholders**.**
- Integrated Shiftconnector, Augmentir, and GoCanvas with **SAP/ERP, CMMS, historians, alarms/events, and equipment logs** via REST/JSON APIs; validated end-to-end behavior through **API testing (Postman)** and system acceptance testing.
- Built and validated **audit-ready export + dashboard workflows** using **Inmation** on a Windows VM, replacing manual spreadsheet collation; client feedback indicated **major audit-effort reduction** (estimated **~40–60%**).
- Served as **first-line technical escalation** for 30–100 user deployments (multi-site); resolved issues such as **SSO/Active Directory access failures** and workflow dispatch/save errors by isolating root cause via platform logs and reproductions.
- Created **runbooks, deployment checklists, and end-user guides**; led **admin + end-user training** (30–40 participants) using sandbox exercises and real workflow scenarios; supported **30+ pre-sales demos** and technical discovery.
- Built **domain SME assistant agents** in **Augmentir** (LLM-enabled) to provide contextual, in-the-field guidance for operators, reducing dependence on control-room SMEs and improving self-serve support during execution of procedures.

NVIDIA Corporation Santa Clara, California
Enterprise XR Technical Product Management Intern *May 2021 – August 2021*

- Developed XR demos in **Unity** using **CloudXR**, deployed an **AWS EC2 instance**, enabling internal testing and supporting early product discussions with the University of Utah's Medical School.
- Assisted a **Swiss VR medical training startup** with CloudXR setup and integration, helping initiate a product partnership through technical enablement and platform alignment.
- Contributed technical content to **Nvidia blog**, synthesizing insights from partner conversations to position CloudXR's value for immersive medical education.

Dolby Laboratories San Francisco, California
Enterprise Apps Project Management Intern *January 2020 – August 2020*

- **Integrated a project management platform** across Finance, Marketing, and Legal teams, reducing cross-team sync meetings by 50%.
- Revamped IT PM processes by introducing Agile workflows, reducing project cycle times by 30% and improving internal coordination.
- Supported **roadmap planning** and **cross-functional requirement** gathering for enterprise IT applications, from concept through post-launch evaluation.

Education

Iowa State University | College of Engineering Ames, Iowa
Bachelor of Science in Computer Engineering with a Minor in Data Science

Skills

- **Languages:** JavaScript, Python, PowerShell, SQL, Java, C#
- **Integrations:** REST APIs, JSON validation, Postman, SQL/DB access (basic), MQTT (basic), enterprise SSO/Active Directory coordination
- **Cloud / Infra:** AWS EC2, Windows VMs, SaaS/on-prem/hybrid deployments
- **Data / Analytics:** Pandas (data analysis), Power BI, KPI development, A/B testing
- **Engineering Tools:** Git, CI/CD, Jira, Confluence
- **3D/XR:** Unity, CloudXR

Certifications & Activities

- AI for product management certification by Mind The Product 2025
- High impact presentation certification by Dale Carnegie Training 2024
- Trackside hospitality volunteer for Circuit of the Americas Formula 1 Grand Prix 2022
